Thallysson Makcyel

Product Designer | UX/UI Designer

Montes Claros, MG, Brazil | thallyssondesigner@gmail.com
linkedin.com/in/thallysson | thallyssonmax.com

Professional summary

Product Designer with 3+ years of experience building and improving digital products, primarily B2B SaaS platforms and responsive web applications. Experienced across the product design process, from discovery and solution definition to prototyping and delivery, with an emphasis on usability and business value.

Skilled in user research and usability testing, behavioral analytics, design systems, and cross-functional collaboration with Product and Engineering teams. Holds a degree in Psychology, bringing an understanding of human behavior to complex problem-solving.

Professional experience

Frenet | Product Designer

Jul 2025 – Present · B2B logistics management and shipping integration platform

- Own the end-to-end design process for the Expansion squad, from discovery and user flows to prototyping, documentation, and delivery.
- Design and improve experiences for integrations with marketplaces, e-commerce platforms, and shipping carriers, simplifying complex logistics workflows.
- Partner with Product Managers, Tech Leads, engineers, and QA to balance user needs, business goals, and technical feasibility.
- Support Design Ops and Figma file organization; create in-product communications using Pendo.

Adminer | UX/UI Designer

Sep 2022 – May 2025 · B2B SaaS competitive intelligence platform for digital businesses

- Designed and improved user journeys, workflows, interfaces, and strategic product features with a focus on usability, clarity, and retention.
- Conducted user interviews, research, and usability tests; used Hotjar and Mixpanel to identify friction and inform data-driven design decisions.
- Continuously refined the product experience, contributing to a **reduction of more than 11% in weekly churn**.
- Built and maintained the **Admax design system** and improved Design Ops, documentation, and design-to-development handoffs.
- Worked with Product, Engineering, and stakeholders to incorporate customer feedback into continuous product improvement.

Max Design | UX/UI Designer & Web Designer

Dec 2018 – Sep 2022 · Digital design and website projects for various brands

- Designed responsive websites and user interfaces focused on information architecture, visual hierarchy, and usability.
- Built websites using WordPress, Webflow, Framer, and HTML/CSS, connecting design decisions with implementation.
- Worked on digital projects from design through launch, as well as visual identities for brands.

Selected projects

Brains — flashcard-based language learning app | Personal project
Created a responsive vocabulary-learning app built around spaced repetition. Led product definition and UX/UI design and developed the app with AI-assisted tools; used generative AI to support contextual example sentences and learning images.
